

Duolingo Do's and Don'ts

- [Luke YouTube videos](#) on Tips and tricks for every section, Duolingo English 1hr practice test and Duolingo official practice test multiple times(5-6 min) is all we need to get 120+ with ease.
- During test, for god's sake, don't look anywhere except camera or keyboard for the entire time.
- While writing passage, keep an eye on time, grammatical and lexical mistakes counts much more than words count, its okay to write just 60-70 words, recheck for grammatical/spelling/lexical mistakes and proceed rather than just simply writing 100+ words with mistakes.
- Don't focus much on vocabulary, just make sure you don't use same words repeatedly, English tests are just to test proficiency and how well you're versed with writing and speaking.
- Doing all these would give easily result in lower band score of 120-135 on [Duolingo practice tests](#).
- You can then proceed to an actual test with confidence :)

All The Best 👍
